Project Evaluation Form

Mandatory assessment: max 100 points • Bonus: up to +20 points (overall max 120)

Project title		Team / members	
Deployment URL (spider.foi.hr)		**Repository / source-code link**	
Evaluator		**Date**	
Notes (optional)			

Gating checklist :

Requirement	Met (Y/N)	Negative points	Notes
Deployed and runnable on spider.foi.hr		-20	
Authentication not present; passwords stored securely (not plain text)		-10	
Role-based authorization enforced on backend API		-10	

Mandatory assessment (max 100 points)

Area	Criterion	Max	Points	Notes / evidence
System Design & Documentation 15 points (minimum required 5 points)	Architecture (frontend/backend/db + integration points)	5		
	Data model / ERD + relationships + constraints	3		
	Roles & business rules (incl. 2 regular user types)	3		Already submited
	API documentation (endpoints, auth, errors, examples)	4		
Backend Implementation 35 points (minimum required 5 points)	Core entities & CRUD (Users, Categories, Main entities + status history)	15		
	Business rules enforced server-side (per roles/types)	7		
	Data integrity & validation (mandatory, unique, FK, invalid data blocked)	5		
	Security & access control (auth, confirmations, secure passwords)	5		
	Error handling + audit logging (who/when for critical actions)	3		
Frontend Implementation (Angular) 35 points (minimum required 5 points)	Role-based UI aligned with backend capabilities	10		
	Usability, responsiveness, clear error messages	8		
	Server-side handling of large data + filtering + sorting	6		
	Chart in at least one place about bussines data (not system data e.g. loging)	4		

	Angular code quality & standards (services/guards/interceptors)	4		
	Integration stability (consistent API use, auth state handling)	3		
Presentation / Demo (mandatory)	Clarity & structure	7		
	Functionality demonstrated (end-to-end scenarios)	8		
TOTAL (mandatory)		**100**		

Bonus (up to +20 points; total bonus capped at 20)

Bonus features (max 10 points each)	Evidence (where/how)	Points	Notes
JWT (access/refresh) or robust session handling (incl. CSRF where applicable)			
PDF report export (e.g., categories, tasks, audit trail)			
CAPTCHA / rate limiting / brute-force protection			
TOTP / 2FA			
XSS hardening (sanitization, CSP basics)			
Other relevant, well-integrated improvement (specify) not mentioned previously			
TOTAL (bonus)		**max 20**	

Final score summary

Component	Max	Awarded	Notes
Mandatory	100		
Bonus (capped)	20		
Negative points	-40		
TOTAL	100
